Joseph Tsai (Sr.1 A1) Traveling is the best way to get to know a country. You can learn about the local history and culture with its different cuisines and lifestyle. As students, we have a limited budget and time for traveling. Therefore, the best choice is to go to a southbound country that is

reachable within two hours of flight time, a place where people are friendly and where we are welcomed. So where should we go? One of the nearest countries, the Philippines, is definitely a great option to consider. The Philippines is rich in history, tourist attractions, and interesting food.

To understand the history of the Philippines, we would like to spend a few days visiting historical places, like the oldest stone church in the country, San Agustin Church. This is where the Rizal Monument was erected. The Rizal Park also houses the National Museum of Natural History, Japanese Garden, Chinese Garden, and the National Planetarium. We can also take a pleasant walk in the world's first Chinatown, in Manila, which also comes alive during the big festivals that we Taiwanese also celebrate. It would be interesting to see how the same festivals are celebrated somewhere else.

It is more fun in the Philippines. This is the slogan of the Philippines' Department of Tourism. We plan to relax and enjoy the sights and wildlife of the Philippines as we cruise to Cebu for our remaining days. There are so many things we can do in Cebu. Our dream to swim with the whale sharks can come true. Near Oslob, we can witness these graceful giants swim. Seeing the whale sharks opening their big mouths would be a breathtaking experience. Another must play water activity is the Kawasan Falls Canyoneering. The canyoneering starts in the jungle where we need to wear a helmet and a life vest. With a guide, we will jump into the water and begin floating down the canyon. This goes on for two hours as we float, jump and climb our way down to Kawasan Falls. When we end up at Kawasan Falls, we will finish the experience with a big jump from the top

A trip to the Philippines wouldn't be complete without tasting Filipino dishes like chicken adobo. Adobo means marinated in a mixture of soy sauce and vinegar. Another must try snack would be Balut. It is a snack that will always raise eyebrows with tourists in the Philippines. Balut is a fertilized duck egg eaten in the shell and taken with a pinch of salt. You may hesitate to try this dish but we believe you should always try new

With the Southbound Policy, Taiwan aims to revitalize its economy and enhance relations with its neighboring countries. As students visiting the Philippines, we can also go with a mission as youth ambassadors and introduce to our foreign friends the culture and beauty of Taiwan. We will do our part to promote exchanges among our countries and build closer links between Taiwan and the New Southbound countries.

Christmas is about giving and receiving. However, Christmas

is also the perfect time to learn about new things. Recently, we

learned new things about bullying. This was done because we

had an anti-bullying storytelling competition. Let us share some

Story 1: Can boys play with dolls? This story is about the

importance of not bullying. One day, there was a boy, Isaac, who

was playing with a doll. He was different because other boys

liked to play with robots, cars or action figures, not dolls. When

Isaac plays with his dolls, he always says, "Yeah! Dolls are so much fun!"

Isaac did not have any friends in school. Why? It was because he was just

Josh. They bullied Isaac because he was playing with his dolls. Josh said,

cried, "Waaa! Waaa! Why do people hate me?

What did I do wrong?" The teacher saw that Isaac

was sad. The teacher told Isaac that it was okay

to be different. The teacher said, "It's okay to be

different. Being different is what makes you

special. If you have self-respect, everything will

be okay." What happened next? Thirty years went

by. Isaac became a famous and successful

businessman. He sold dolls to little girls AND

like a girl, and nobody liked him in class. Sometimes, he asked himself,

My Reflection

Jessica Ding (Jr.1 Blue B) What is bullying? Follow this campaign and

you'll see stories of bullying and ways of tackling it. First of all, our first draft was a mess. The ideas were either useless, or too funny to resemble a bullying story. Toward the end of the lesson, we finally discussed a story of integration, inclusion and kindness.

The next day, the whole class was filled with laughter as we watched the actor's exaggerated

body movements and the cameraman's body position which was almost on the ground. I laughed madly! As a good director, I was responsible for giving a bunch of advice, while forcing photographers to stay tuned to the energetic and crazy people who were laughing the whole time. The whole group didn't understand what I was

Finally, I learned more from this activity than I had expected! I learned that what you say, even if careless, may hurt others. I learned teamwork and I learned how to create a good atmosphere for all!

This activity taught me what bullying is, and how to voice my opinion.

On November 14th, we started an anti-bullying project in small groups. We watched some anti-bullying videos that taught us "bullies have no friends". The next day, we had to create our own story. It was fun but we were also nervous because at the end of the project our groups had to perform in front of the principal and our classmates.

After we finished our anti-bullying story, we took pictures to create a PowerPoint presentation. Our pictures were really funny. They helped us to feel better because the topic was very serious. I think we had a friendly group and we helped each other.

Later, we drew our posters. We liked it because it was simple and nicetwo hands, a heart and two small people showing us that bullying is wrong. One of our group members went to the computer lab to create the PowerPoint presentation. Then, it was almost time to present our story in front of our class

The next day, we did a great job. We were chosen to go and present in the Zhong-Zheng Building in front of Principal Mei and the other classes. We felt special because it was the first time we got on stage in Huaxing High School.

BOYS in Taiwan and around the world. What can we

learn from this story? Well, this story tells us that if we

likes dolls, know that you are special. Just be yourself.

Story 2: Maxwell is a boy. He has a birthmark on his face, and

so his classmates laugh at him. "Disgusting trash can." Tom

said, and made a look like he was about to vomit. Slome and Tiss

echoed that. Maxwell walked past them then, fought back tears,

covered the birthmark on his face with his hand and ran away

enough!"Rare said, and then chased after Maxwell. He found Maxwell and

patted his shoulder, but Maxwell just pulled the coat to his face that was

upon what to do to help Maxwell, and he got a good idea! At the end of

class, he quietly told several classmates about his plans. Others looked at

Rare's intentions, and they decided to help Maxwell. The next morning,

Everybody else, including the teacher, all had the same "fake birthmarks"

as Maxwell. This time, Rare saw Maxwell's smile and the "T.S.T trio's

I strongly believe learning to fight bullying is important to everyone. This activity made us understand that bullying makes people sad, and we also became more hardworking. It was a good project.

"Stable." "Constant." Do you know the difference between these two words? Do you know what they mean in Chinese? If you were one of the participants of this year's English Spelling Contest, you would. Why? Because preparing for and participating in a spelling contest goes far beyond learning how to spell long or complicated words. Let us tell you our story

Next, you need to learn to break down words and decipher the meanings of related words. This is when you start enjoying it yourself. Believe us, you will see the big picture after a while.

Finally, you need to get your watch and work on your speed. You have about 6 seconds to answer even the most difficult questions, so forget about correcting or writing on the question sheet. In conclusion, "constant" hard work and ast speed is the best way to a "stable"

We Are the Champions of Taiwan

Eugenie Lin, Vivian Tuan, Benjamin Pang, Ariel Hsieh (Sr. 1 A1) We, the Huaxing Hotshots, are Ming Chuan University's 2019 PowerPoint Presentation Competition champions. Every Tuesday and Thursday from the beginning of October to the middle of November, we met up in Mr. Kuhel's classroom to discuss the project. We sacrificed our lunchtimes and slowly but surely, the presentation started to take shape.

On the morning of the competition, we met at the MRT station at 6:30 a.m. all beautifully suited up in professional attire, breakfast in hand, ready for action. It's was a good thing Mr. Kuhel went with us. He gave us two last minute pieces of advice that saved our presentation.

We were so nervous, we were almost crying. However, when it was our turn, all the confidence rose up. It's Show Time! Our presentation started off decently, but the remote control was acting weird. This quickly affected teammates on the stage. They began to crack-- forgetting lines, repeating lines, voices nervously shaking when the wrong slides were put up. Nevertheless, Mr. Kuhel told us that there would always be problems with the equipment, and we had to plan in advance in case something went wrong "Carry on, no matter WHAT happens because everything is in your heads. Just do your best and cover for each other. Believe in yourselves, you guys are the best! And don't forget the most important thing--have fun!"

It was not our best performance and we knew it. Benjamin sat down and said, "We're gonna win next year." Eugenie was bright red and almost in tears, Vivian was depressed and Ariel was silent. We knew we messed up. There's was no way we will win or even take second or third place. But when the judges came on stage, the only thing they talked about was our performance: the rapid fire dialogue between Vivian and Benjamin, the

funny stories, and how they came to each other's rescue when the slides were out of sync! At that moment, we knew that even though we didn't perform perfectly, we gave it our best and still won. We are the champions, my friends! Thank you, Mr. Kuhel!

今天是開心的日子,要去參訪十三行博物館 路程中大家有説有笑,感覺時間向白駒過隙 頃刻間校車已停在了十三行博物館門口,滿懷 興奮的心情下車,步進博物館裡,琳瑯滿目的 文物令我讚嘆不已,從遺址出土的石器、古器 到紋飾精美的陶器,都漂亮極了

導覽員將我們班分成了兩組,我們這組先到 樓上參觀,導覽員先講述了十三行的歷史,接 下來我們又到了人骨區,那邊有很可愛的假人 裡展示了珠飾、青銅器、玻璃,和本館的鎮館 之寶「人面陶罐」,導覽原先帶我們看珠飾 青銅器,介紹了十三行人的貿易交流,把重頭

戲放在了最後,人面陶罐遠看就有一種神祕感 陶罐上立體具象的五官,給我一種氣派儼然的感 覺,至少是全台唯一,是非常特別、精彩的展品 ,導覽員也介紹了不少時間,接下來就是自由活 動時間啦!

自由活動時間,同學立刻成群結隊探索 找出學習單上的答案,大家非常團結快速全部找 到解答後我們開始「真正」的自由活動,一個超 大的鏡頭可以讓我們合照,還看到了VR,大家 立刻爭先恐後的搶,那畫面真詼諧有趣

這次去博物館非常有趣。增進了我對歷史的 了解,也增進了我和同學的友誼,謝謝學校用心 籌備這次的活動,也謝謝老師、導覽員的用心。

告訴我們石油跟水一樣有三態:液態是原油

卸油浮筒、航空加油機等器械,導覽老師並告訴 我們石油的煉製與輸儲,讓我們瞭解石油煉製的 原理,在這些過程中,你也可以選擇配戴著工地 帽與工地服去探索,有身歷其境的感覺

二樓是探索石油的蹤跡,我們看到中油在 不同年代中的石油機,了解生活中很多產品是 石油製作的,衣服的材料、藥品上的應用或是 科技產品.....多少都一有石油原料的產品。另外 導覽老師還教我們能輕易做到的節能減碳。各 種中油歷年的東西,加油機、煉油廠等,感覺 就像中油的時光機,讓我們回到過去

我更瞭解石油,而且都是有趣且富有知識性的 J.遊戲。第一個就是類似鑽油井的遊戲,讓你 學習挖掘深度和挖掘的過程中,什麼階段該使 用哪種搖桿,目的就是要讓我們瞭解挖掘油井 的過程;第二個就是加油知識大考驗,可以坐 在車子體驗開車的樂趣,在螢幕上還會顯示很 多問題來考驗你;最後一個遊戲是石化知識大 考驗,這個遊戲主要是要我們分類石化產品 為了讓我們知道石化產品有哪些

石油探索館之旅是一次很豐富的生活學習 ,讓我們知道許多石油的奧秘,也讓我們知悉

石油在生活中的應用

這次的本位課程很特別,安排了京劇,已 好幾年後再次看京劇,所以心中期待已久這一 場京劇。

這次京劇觀賞,還看到了演員的頭髮是如何 盤的,也了解了一些演員妝髮,服飾的差別及 許仙的曲折愛情故事,千古傳唱人蛇戀的故事 這次的京劇也讓我想起了兒時和兄弟姊妹、 檀香隨著徐徐清風緩緩上升,那紅磚牆隨著歲 **月稍稍斑駁,一群男女老少坐在廟前的椅子上** 喝著茶、聊著天、看著戲臉上自在安詳悠閒

,但那生長在傳統文化的美好的日子早已消逝 ,留下的唯有回憶

那年夏天,我進入了學校的表演藝術代表 其所代表的意義。這次京劇演出的是家喻戶曉隊,也實現了我在兒時的夢想一我希望有朝一 的白蛇傳,描述的是修練成人形的蛇妖與凡人 日,我也能穿著這種表演服,在台上耍耍旗 丟丟棍、舞舞劍,隨著彩帶一般飛揚,而表藝 ·演員神情的生動刻劃,在台下的我真覺得新 隊完成了我這個夢想。我曾聽過一句話:「唱(演) 奇與讚嘆。自小我就很喜歡古風的東西和事物 戲者無論台下有沒有人,都必須把戲演完。」 總覺得這些陌生的東西,有種熟悉的親切感 這句話也使我每次的演出及比賽更加的賣力。

這次能夠再欣賞京劇,令我非常的懷念 親朋好友在廟裡嬉戲、拜神明的景象,那冉冉 也令我想起了許多的兒時回憶。台灣的傳統文 化很值得珍惜,希望有這些傳統能更鼎盛,希 望這些傳統能上得了台面,而不被看不起、被 覺得奇怪,願薪火相傳,京劇文化不滅!
